

VILLAGE OF PEOTONE

BUILDING PERMIT

SHED APPLICATION PACKET

In an effort to improve service to our residents, the Village is making information on building permits available in a downloadable format. Please select the information for your specific project.

PLEASE REMEMBER:

1. The Village contracts with Independent Inspections LLC for our building permit review and inspections. As the LLC form is incomplete for village needs, two application forms are necessary for the project (only one fee is charged). We have highlighted those areas you need to complete on each application. The downloadable forms are provided to assist in preparing your application. However, as the original forms are a multi-copy format, downloaded forms can not be accepted as a final application. We suggest you bring your completed downloaded form with you to shorten your time at the village hall.
2. Except for roofing, siding, or walks, exterior projects require submittal of a Plat of Survey. The Plat must be to scale and show all existing structures to scale. Proposed projects must be drawn to scale on the Plat. Do not mark on your original Plat of Survey. If you do not have extra copies, we will make one for you.
3. The nature or character of the project may require additional documentation.
4. All contractors must be registered with the village. Roofers, plumbers, and lawn irrigation installers must provide proof of a valid Illinois state license. [Download Contractor Registration packet Click Here.](#)

Sheds must be a minimum of five (5) feet from an interior rear lot line, ten (10) feet from side lot line, and ten (10) feet from the foundation of the principal building. Sheds may not intrude onto an easement and are only allowed in rear yards.

Sheds may not exceed 120 square feet in size and no wider than twelve (12) feet. The shed height shall not exceed ten (10) feet.

Sheds must be anchored so as to withstand wind gusts.
